

Installation Steps

Step 1: Add Snippet Files

1. [Duplicate themes](#) to create a backup copy.
2. From the Shopify admin, select **Online Store**.
3. Select **Actions**.
4. Select **Edit code**.
5. Under **Snippets**, and create this file
 - personalised-gift-supply
 - a. Select **Add a new snippet**.
 - b. Enter the correct **snippet name**.
 - c. Click on **Done**.

Copy and paste the code found in each of these links into their respective files:

- [Personalised-gift-supply.liquid](#)
- d. Select **Create snippet**.

Step 2: Edit product-template.liquid

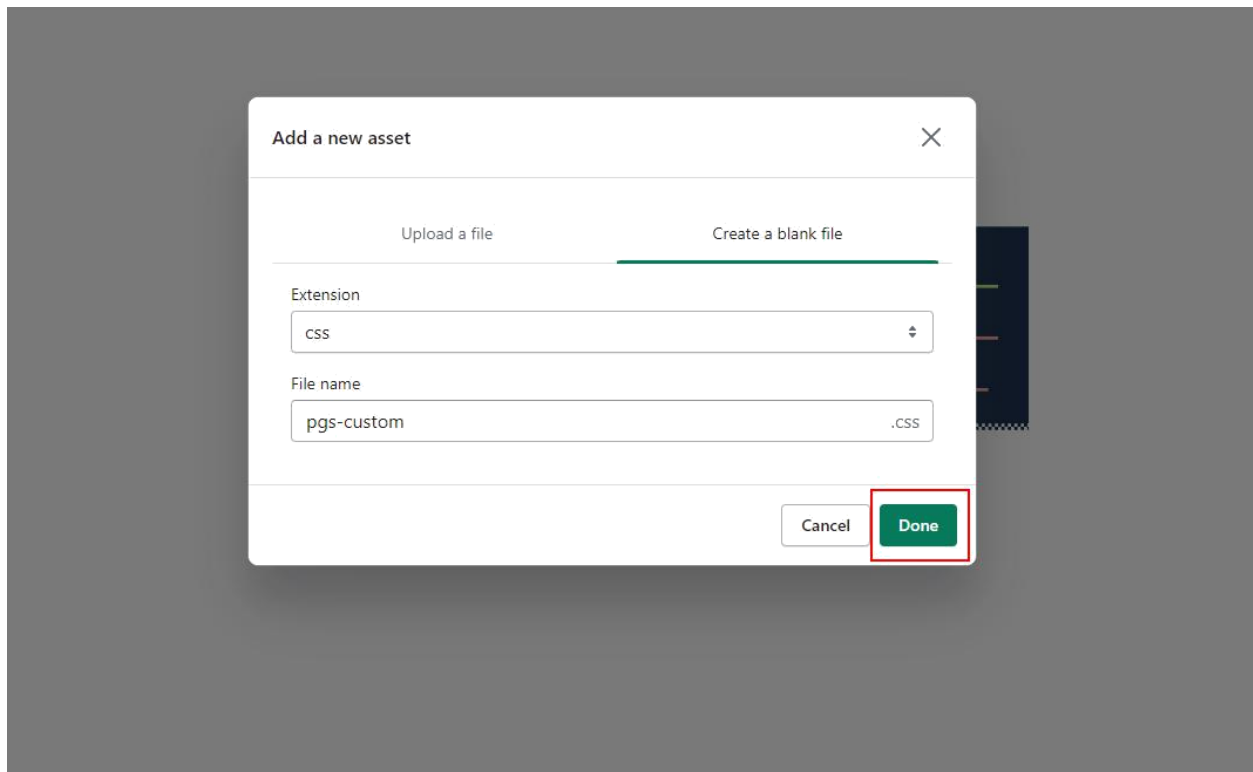

1. Under Sections, select product-template.liquid.
2. Copy and paste the following code directly above the {% form 'product', product, class:form_classes, novalidate: 'novalidate', data-product-form: " %}

```
{% render 'personalised-gift-supply' %}
```

```
161
162     {% render 'personalised-gift-supply' %}
163     {% form 'product', product, class:form_classes, novalidate: 'novalidate', data-product-form: " %}
164         {{ form | payment_terms }}
165
166     {% unless product.has_only_default_variant %}
167         <div class="product-form_controls-group">
168             <div class="product-form_controls-group">
```

Step 3: Add pgs-custom.css

1. Under **Assets**, and create this file
 - pgs-custom
 - A. Select **Add a new asset**.
 - B. Click on the **Create a blank file**.
 - C. Select the **Extension** is css.
 - D. Enter the correct **file name**.
 - E. Click on the **Done**.

Copy and paste the code found in each of these links into their respective files:

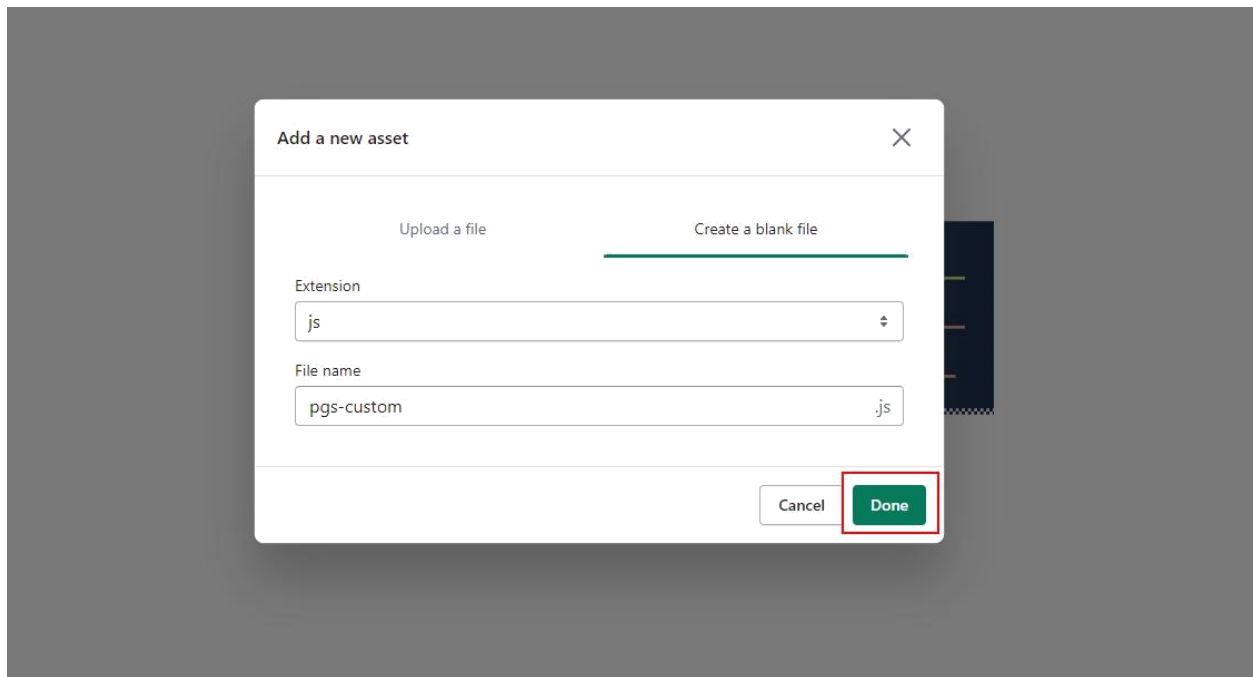

- [pgs-custom.css](#)

F. Select **Create Asset**.

Step 4: Add pgs-custom.js

1. Under **Assets**, and create this file

- pgs-custom
 - A. Select **Add a new asset**.
 - B. Click on the **Create a blank file**.
 - C. Select the **Extension** is js.
 - D. Enter the correct **file name**.
 - E. Click on the **Done**.

Copy and paste the code found in each of these links into their respective files:

- [pgs-custom.js](#)

F. Select **Create**

Asset.

Step 5: Edit `theme.liquid`

1. Under **Layout**, select **theme.liquid**.
2. Copy and paste the following code directly above the `</body>` tag:

```
{% if template.name == 'product' %}

    {{ 'pgs-custom.js' | asset_url | script_tag }}

{% endif %}
```

```
502
503     {% if template.name == 'product' %}
504         {{ 'pgs-custom.js' | asset_url | script_tag }}
505     {% endif %}
506 </body>
```
